

CASYE

The **CASYE** project (Cultural & Social Youth Entrepreneurship) has partners from the United Kingdom, Belgium, Italy and Spain. CASYE will create and pilot an innovative e-toolkit to promote social entrepreneurship competences among young people. This will allow them to turn their creative ideas and solutions to current social problems into entrepreneurial projects. The project will be run as a social entrepreneurship youth project by adopting a youth-led structure for its management and evaluation.
